Pagers

Up button   Exit button
Down Button   Up button
Function Button   Down button
Exit Button   Function button

To turn on: Press and Hold the Exit Button.
 Press **Function** for menu: Set time and alarm – Alert mode – Turn pager off – Escape
        Use **Up** or **Down** to scroll. Press **Function** to save → then **Exit** button

Programming Pager ID (Address): Press **Exit** & **Up** for a few seconds. Password is **0000**
     Press **Down** 4 times to step thru password to display pager IDs.
     Press **Up** or **Down** to scroll through table. Use **Function** or **Exit** to toggle
     between ON or OFF for the desired ID(s). Then, press **Up** or **Down**
     repeatedly to exit the programming menu and
- Select **PROGRAM** → **Function** to save
- Select **EXIT** → **Function** to exit.

```
A: [ ON ]   0000011
B: [OFF]    0000022
C: [OFF}    0000033
D: [OFF}    0000044
E: [OFF}    0000055
F: [OFF}    0000066
G: [OFF}    0000077
H: [OFF}    0000088
```

There may be a **Choose alert** menu which is only available when **Audible alert** is enabled in **Alert mode**. The standard setting is **Vibrate only**, so **Choose alert** might not be available when the pager is switched on.

Messages initially display for about 6 seconds & are marked unread. To view messages press **Exit**. If the screen is blank, press **Program** → **Exit** or press **Exit** twice.

```
Bridgemate pager
▲▲▲▓▲

09:48PM  01/12/2018
```
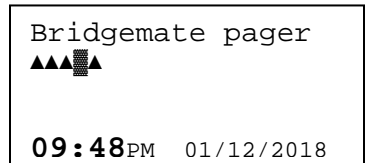

Each black triangle ▲ represents a message. Message status can be:
- Flashing triangle = Unread message
- Non-flashing triangle = message read

Messages remain on the pager for 10 minutes. Each message more than 10-minutes old is deleted from the pager

To turn the pager off: ► Press **Function button,** and then **Up** or **Down** button
                         ► Scroll to **"Turn pager off"** ► Press the **Function** button twice.   180216
